

APRIL 16

## KAHOOT

It's time to test your skills against other FBG families. You can play as a family or play as individuals.

If you play as a family, get the big screen ready so everyone in the family can see the game and elect one person to choose the final answer. If you are playing individually, make sure everyone has a device that can get on the internet.

There are ten trivia questions and they are timed. You'll have twenty seconds to answer each question and the faster you respond, the more points you will receive.

You can use this QR Code or you can go to [www.kahoot.it](http://www.kahoot.it) and put in the Game Pin: 0752930
